

## ESPANOLA REGIONAL HOSPITAL AND HEALTH CENTRE

### High Intensity Supports Program Coordinator

We are currently looking for a Temporary full-time **High Intensity Supports Program Coordinator** until March 31, 2024. The goal of the program would be to support system capacity by fostering leading practices and improvement strategies to coordinate complex high intensity care needs in hospital and facilitate community connections. The Program Coordinator will focus on the high intensity needs of the patient population that are transitioning from hospital to home and Mental Health/Addictions patients accessing care at ERHHC. Will also identify workflow efficiencies, standards of care, and best practices as we advance our systems to meet patients' needs in a rural healthcare environment.

The successful candidate will play an integral role in the development, implementation, and adoption of both clinical and non-clinical health care programs. Reporting directly to Senior Management, the Program Coordinator is a highly motivated individual who demonstrates exceptional problem solving, process improvement, complex program development, and management skills combined with technical knowledge within the electronic health record environment.

Qualified candidates will have 3-5 years' experience in a health care field with an applicable post-secondary diploma/degree. Advance skills in business analysis, program development, and management are required. Experience working in a hospital with Meditech/EHR software applications is preferred. The ideal candidate will be bilingual in French and English, as well a registered member of a regulated health care professional college.

To apply in confidence, please forward your resume together with a cover letter outlining your relevant experience and qualifications to:
