

ESPANOLA REGIONAL HOSPITAL AND HEALTH CENTRE
Temporary Full-Time Infection Control / Occupational Health Lead
Approximately 14 months in duration

We are currently looking for a Temporary Full-Time Infection Control/Occupation Health Lead. The successful candidate will be responsible to act as a facilitator to reduce the risk of infection and minimize infection transmission within the facility. This role provides ongoing expertise, consultation, surveillance, education, research and evaluation of infection prevention and control processes and procedures to departments and programs. The successful candidate will be the lead resource in infection prevention and control, including but not limited to all COVID-19 response. In addition, the successful candidate will oversee the operations of the COVID-19 Assessment Centre and vaccine clinics. This role provides health promotion, collaborates with frontline staff, managers, ancillary support staff, volunteers, medical staff, and external partners.

Qualifications:

Post-Secondary Education in a Health Related Field
Current Certificate of Registration with applicable Governing College/Regulatory Body
Three years related experience in Infection Prevention and Control and management in hospital setting preferred
In-depth knowledge of current IPAC best practices, legislation and reporting requirements
Demonstrated effective leadership and management skills required
Demonstrated facilitation abilities when presented with challenges experienced in the health care setting required
Bilingualism (French and English) an asset
