Manager of Information Technology

We are currently looking for a permanent full-time Manager of Information Technology (IT). The successful candidate will play an integral role in the development, implementation, and adoption and support of both clinical and non-clinical health care information technologies. The incumbent will find workflow efficiencies and ensure best practice for all existing and required information technology. Reporting directly to the Chief Financial Officer, the Manager of IT is a highly motivated and knowledgeable individual who possesses superior technical skills combined with exceptional problem solving and complex project management abilities.

As an innovative and creative leader, the successful candidate will plan and direct all activities and workflow of the IT department, develop and implement related Quality Assurance programs, and ensure data integrity and protection. As well, the incumbent will foster and support a team environment to ensure the attainment of our organization's goals, and will act as a role model for all staff and promote the reputation of the facility in the community.

The Espanola Regional Hospital and Health Centre is an equal opportunity employer committed to inclusive, barrier-free recruitment and selection processes. If contacted for an employment opportunity, please advise if you require an accommodation.
